## ThinkForex has Officially Gone Green!

**Auckland, New Zealand, September 23, 2011** - In recognition of our extensive and continued expansion, ThinkForex has "Gone Green". Our company is changing colors to represent our nonstop growth in the Forex marketplace. Our new look embodies our commitment to moving forward with new and existing clients in successful partnership. All systems will be truly "Green" as we expand our presence into new global markets.

As ThinkForex has gone green we have introduced new products and services that have been in development for the past few months.

***Additional Data Centers:***

New data centers have been added throughout the world to provide our clients with faster connection points delivering low latency execution, faster chart updates, and increased tick data.

***New Forex VPS (Virtual Private Server) Options - Pro and Institutional VPS:***

New enhanced [Forex VPS](#) packages are available offering more processing speed and storage capabilities. Now various [Fx VPS](#) options are accessible to meet the needs of Forex traders of all sizes.

***Direct Credit Card Funding:***

Direct credit card funding is now available, therefore clients are no longer required to verify an account with a wallet processor when funding. Regardless of the credit card processor clients choose to use, ThinkForex always offers free credit card funding.

***Additional Banking & Funding Solutions:***

We have added several new large clearing banks, and various additional bank wire options with IBAN, SEPA Transfer, and SWIFT payment options. We have also integrated several popular payment processors such as Moneybookers, AlertPay, ClickandBuy, uKash, and CashU. There are no deposit fees for using these services.

### ***New Mobile Trading Applications:***

As we expand our [Mobile Forex Trading](#) solutions we have updated our product line to support [MetaTrader 4 Android](#), Blackberry, and Windows Mobile devices. Access to Live Forex and [Demo Forex accounts](#) has never been easier and available in so many convenient options.

ThinkForex is committed to offering the best customer support, technology, and unique services that are un-rivaled by our competitors. In the coming months several new products and services we will be released. We invite all existing clients and curious parties to stay informed of our new offerings by becoming a fan of our [Facebook page](#) or by following us on [Twitter](#). As new features and services are available announcements will be made through various social and electronic media outlets.

### **ThinkForex Management**

***ThinkForex is committed to changing the Forex landscape by offering access to high-speed trade execution providing the ideal environment for forex traders.***
